SUMMARY

Full-Stack Developer with experience in building scalable web and desktop applications using Angular, .NET (C#), and SQL Server. Skilled in multi-layered architectures, Domain-Driven Design (DDD), SOLID principles, and Clean Architecture. Experienced in API development, database modeling, CI/CD pipelines, and version control with Git and Azure DevOps.

EXPERIENCE

Desarrollador Full Stack

Hunika

📅 06/2024 07/2025 📍 Remote

- Developed web applications using Angular and C#, with a focus on performance and scalability.
- Participated in projects with multi-layer architecture and Domain-Driven Design (DDD), applying SOLID principles, Clean Code, and Clean Architecture.
- Integrated and consumed external APIs, and developed integrations with internal systems.
- Managed version control with Git and handled workflows in Azure DevOps (Backlog, CI/CD, Repos).
- Administered and developed SQL Server databases, including data modeling, stored procedures, and complex queries.
- Delivered tailored technical solutions for national clients by translating requirements into viable implementations.

Software Developer

In-Tech SLP

📅 03/2024 06/2024 📍 San Luis Potosí, México

- Developed and maintained web and desktop applications using Windows Forms, Angular, and C#.
- Implemented and documented REST APIs with Swagger, utilizing Singleton and dependency injection patterns.
- Deployed applications in production environments.
- Designed databases, created complex queries, views, and stored procedures.
- Created RESTful APIs using ADO .Net and Entity Framework, applying Singleton and dependency injection.
- Collaborated with various departments to translate requirements into effective digital solutions.
- Led new projects in the plant, from requirements gathering to proposing solutions, estimating, and delegating tasks to the development team.

Software Developer Intern

Robert Bosch SLP.

📅 03/2023 02/2024 📍 San Luis Potosí, México

- Professional internship at a global company, participating in the development of scalable applications, critical issue resolution, and plant-wide platform deployment.
- Collaborated in service management, code reviews, and complex database design.

STRENGTHS

Programming

- C#
- Python

Web Desing

- HTML5
- CSS3
- Bootstrap
- JavaScript
- JQuery
- Angular

Document Management

- Git
- GitHub

Data Base

- Oracle-PLSQL
- MySQL
- SQL Server

SOFT SKILLS

Adaptability

Resilient

Persistent

Teamwork

Honest

CERTIFICATION

Partner: PCAP - Programming Essentials in Python

Partner: CPA - Programming Essentials in C++

Partner: CPA - Programming Essentials in C

ESB: Entrepreneurship and Small Business v.2
